From: Michigan Fire Inspectors Society, Senate Bill 235

RE: Senate Bill 235

IMPORTANT

September 24, 2013

Seante Bill 235 was passed out of House Committee on Regulatory Reform by a unanimous vote. The Bureau of Construction Codes and LARA has changed their stance on the bill from neutral to opposed.

The bill now goes back onto the House Floor for a second reading. If there are no amendments, the bill will then be read a third time and voted on.

It is critical that each one of us contact our Representative and ask them to support Senate Bill 235 as passed out of Regulatory Reform.

In addition, start writing letters to the Governor's Office asking him to supprt Senate Bill 235.

Thank you,

MFIS Task Force on Senate Bill 235
